the west side of CR 139 and the eastern boundary of Section 38 for less than 0.1 mile, where it crosses a pipeline. The segment continues north, still paralleling the west side of CR 139 and the eastern boundary of Section 38, for approximately 0.9 mile where the segment terminates at the junction of segments 15, 25, and 26, in the northeast corner of Section 38.

Segment 23
Segment 23 begins at the junction of segments 17, 20 and 21, in the northeast corner of Section 40 in Gaines County. From there it extends north into Section 39 for less than 0.1 mile where it crosses a pipeline. The segment continues north, paralleling the eastern boundary of Section 39 for approximately 1.0 mile, where it crosses CR 126 into Section 6. From there the segment terminates at the junction of segments 26 and 27 in the northwest corner of the CR 126/CR 137 intersection in the southeast corner of Section 6.

Segment 24
Segment 24 begins at the junction of segments 18 and 21 in the northwest corner of Section 40 in Gaines County. It extends north into Section 39 for less than 0.1 mile where it crosses a pipeline. The segment continues north, parallel to the western boundary of Section 39, for approximately 0.9 mile where it crosses CR 126 into Section 6. The segment continues north, paralleling the western boundary of Section 6 for approximately 0.1 mile, where it crosses a pipeline. The segment continues north, still paralleling the western boundary of Section 6 for approximately 0.9 mile where it angles northwest across the SH 83/CR 135 intersection into the southeastern corner of Section 3. The segment continues north, paralleling the west side of CR 135 and the eastern boundary of Section 3 for approximately 0.7 mile where it crosses a pipeline. The segment continues north for another approximately 0.3 mile, still parallel to the west side of CR 135 and the eastern boundary of Section 3, where it crosses a pipeline and enters the southeast corner of Section 10 where it terminates at the junction of segments 28 and 30, in the southeast corner of Section 10, on the west side of CR 135.

Segment 25
Segment 25 begins at the junction of segments 15, 22, and 26, in the southwest corner of the CR 126/CR 139 intersection in the northeast corner of Section 38 in Gaines County. It extends northeast across the CR 126/CR 139 intersection into the southwest corner of Section 4, then turns north paralleling the east side of CR 139 and the eastern boundary of Section 4 for approximately 1.0 mile where it crosses SH 83 into Section 6. The segment continues north paralleling the east side of CR 139 and the western boundary of Section 6, for approximately 0.3 mile, where it crosses a pipeline. The segment continues north, still paralleling the east side of CR 139 and the western boundary of Section 6, for approximately 0.7 mile where it crosses into the southwest corner of Section 7. The segment continues north, paralleling the east side of CR 139 and the western boundary of Section 7 for approximately 0.9 mile, where it crosses a pipeline. The segment then continues north paralleling the east side of CR 139 and the western boundary of Section 7 for approximately 0.1 mile where it parallels the west side of a pipeline and crosses CR 132 into the southwest corner of Section 18. The segment turns west and crosses CR 139 into Section 13 where it terminates at the junction of segments 34 and 35, on the northwest side of the CR 132/CR 139 intersection, in the southeast corner of Section 13.

Segment 26
Segment 26 begins at the junction of segments 15, 22, and 25, in the southwest corner of the CR 126 /CR 139 intersection, and in the northeast corner of Section 38 in Gaines County. It extends northwest across CR 126 into the southeast corner of Section 5 where it turns west, paralleling the north side of CR 126 and the southern boundary of Section 5 for approximately 1.0 mile, where it crosses CR 137 into Section 6. There, the segment terminates at the junction of segments 23 and 27, in the northwest corner of the CR 126/CR 137 intersection, in the southeast corner of Section 6.

Segment 27
Segment 27 begins at the junction of segments 23 and 26, in the northwest corner of the CR 126/CR 137 intersection in the southeast corner of Section 6 in Gaines County. It extends north paralleling the west side of CR 137 and the eastern boundary of Section 6 for approximately 1.0 mile, where it crosses SH 83 into Section 2. The segment continues north, paralleling the eastern boundary of Section 2 for approximately 0.5 mile, where it crosses a pipeline. The segment continues north, still paralleling the eastern boundary of Section 2, for approximately 0.3 mile, where it crosses a pipeline. The segment continues north, paralleling the eastern boundary of Section 2 for approximately 0.2 mile, where it crosses into Section 11 and terminates at the junction of segments 28 and 29, in the southeast corner of Section 11.

Segment 28
Segment 28 begins at the junction of segments 27 and 29, in the southeast corner of Section 11 in Gaines County. It extends west, paralleling the southern boundary of Section 11 for approximately 0.4 mile, where it crosses and then parallels the north side of a pipeline and the southern boundary of Section 11 for approximately 0.3 mile. At that point, the pipeline deviates slightly southwest, and the segment continues west, again paralleling the southern boundary of Section 11 for approximately 0.3 mile, where it crosses CR 135 into Section 10. There the segment terminates at the junction of segments 24 and 30, on the west side of CR 135 in the southeast corner of Section 10.

Segment 29
Segment 29 begins at the junction of segments 27 and 28 in the southeast corner of Section 11 in Gaines County. It extends north, paralleling the eastern boundary of Section 11 for approximately 0.2 mile where it crosses a pipeline. The segment continues north still paralleling the eastern boundary of Section 11 for approximately 0.7 mile where it crosses into Section 14 and terminates at the junction of segments 34 and 36 in the southeast corner of Section 14.

Segment 30
Segment 30 begins at the junction of segments 24 and 28 on the west side of CR 135 in the southeast corner of Section 10 in Gaines County. It extends north, paralleling the west side of CR 135 and the eastern boundary of Section 10 for approximately 1.0 mile where it crosses CR 132 into the southeastern corner of Section 15. The segment continues north, paralleling the west side of CR 135 and the eastern boundary of Section 15 for approximately 1.0 mile, to the south side of CR 134 where it terminates at the junction of segments 37 and 38, in the southwest corner of the CR 134/CR 135 intersection, in the northeast corner of Section 15.

Segment 31
Segment 31 begins at its junction with Segment 19 in the northeast corner of Section 4 in Gaines County. It extends north into Section 9 immediately crossing a pipeline, and paralleling the eastern boundary of Section 9 for approximately 1.0 mile where it crosses CR 132 into the southeast corner of Section 16. The segment continues north, paralleling the eastern boundary of Section 16 for approximately 1.0 mile to the south side of CR 134. The segment then turns east into Section 15, paralleling the south side of CR 134 and the northern boundary of Section 15 for approximately 0.7 mile where the segment terminates at the junction of segments 38 and 41, on the south side of CR 134, just south of the northern boundary of Section 15.

Segment 32
Segment 32 begins at the junction of segments 8 and 33 in the southeast corner of Section 15, northwest of the CR 132/CR 147 intersection in Gaines County. It extends north, paralleling the west side of CR 147 and the eastern boundary of Section 15 for approximately 1.0 mile to the Terry-Gaines County line. The segment then turns west paralleling the south side of a private road and the northern boundary of Section 15 for approximately 0.1 mile where it turns north, paralleling the west side of a private road for approximately 0.3 mile and crosses two pipelines to the south of CR 690. The segment then turns west, paralleling the north side of two pipelines and the south side of CR 690 for approximately 0.9 mile. The segment terminates at the junction of segments 33 and 39 on the north side of a pipeline, south of CR 690.

Segment 33
Segment 33 begins at the junction of segments 8 and 32 in the southeast corner of Section 15, northwest of the CR 132/CR 147 intersection in Gaines County. It extends west, paralleling the north side of CR 132 and the southern boundary of Section 15, for approximately .3 mile where it crosses a pipeline. The segment then continues west, paralleling the north side of CR 132 and the southern boundary of Section 15, for approximately .7 mile where it turns north, paralleling the western boundary of Section 15 for approximately 0.8 mile where it crosses a pipeline. The segment continues north for approximately 0.2 mile, crossing the Gaines-Terry county line, entering Section 20 and crossing a pipeline, respectively, before continuing north for another 0.3 mile to the south side of a pipeline and CR 690 where it terminates at the junction of segments 32 and 39 in the northwest corner of Section 20 in Terry County.

Segment 34
Segment 34 begins at the junction of segments 25 and 35 on the northwest side of the CR 132/CR 139 intersection in the southeast corner of Section 13 in Gaines County. It extends west, paralleling the southern boundary of Section 13 for approximately 0.5 mile where it crosses a pipeline. The segment continues west, paralleling the southern boundary of Section 13 for approximately 0.5 mile, where it crosses into the southeastern corner of Section 14 and terminates at the junction of segments 29 and 36.

Segment 35
Segment 35 begins at the junction of segments 25 and 34, on the northwest side of the CR 132/CR 139 intersection in the southeast corner of Section 13 in Gaines County. It proceeds north, paralleling the west side of CR 139 and the eastern boundary of Section 13 for approximately 1.0 mile. There the segment double circuits an existing 69-kV transmission line within existing ROW, crossing into Section 20 in Terry County, for approximately 0.3 mile, to the south side of CR 690 at the northeastern corner of Section 20. The segment then turns west, double circuiting the existing 69-kV transmission line within existing ROW, paralleling the south side of CR 690 for approximately 0.4 mile to the south side of the CR 371/CR 690 intersection. The segment then turns northwest immediately crossing CR 690 into the southeast corner of Section 1 and begins paralleling the west side of CR 371 along the eastern boundary of Section 1 for approximately 1.0 mile, to the northeast corner of Section 1. There the segment terminates at the junction of segments 42 and 43, in the southwest corner of the CR 371/CR 680 intersection, in the northeast corner of Section 1.

Segment 36
Segment 36 begins at the junction of segments 29 and 34 in the southeast corner of Section 14 in Gaines County. It extends north, paralleling the eastern boundary of Section 14 for approximately 1.0 mile to the south side of CR 134 at the Gaines-Terry county line. The segment then turns west, paralleling the northern boundary of Section 14 south of CR 134 for approximately 0.5 mile. There the segment terminates at the junction of segments 37 and 40, southwest of the CR 134/CR 690 intersection along the northern boundary of Section 14.

Segment 37
Segment 37 begins at the junction of segments 36 and 40 southwest of the CR 134/CR 690 intersection along the northern boundary of Section 14 in Gaines County. It extends west, paralleling the south side of CR 134 and the Gaines-Terry county line as well as the northern boundary of Section 14 for approximately 0.5 mile, where it crosses CR 135 into the northeast corner of Section 15 where it terminates at the junction of segments 30 and 38 in the southwest corner of the CR 134/CR 135 intersection.

Segment 38
Segment 38 begins at the junction of segments 30 and 37 in the southwest corner of the CR 134/CR 135 intersection in the northeast corner of Section 15 in Gaines County on the south side of the Gaines-Terry county line. It extends west, paralleling the south side of CR 134 and the northern boundary of Section 15 for approximately 0.3 mile. There the segment terminates at the junction of segments 31 and 41, on the south side of CR 134 just south of the northern boundary of Section 15.

Segment 39
Segment 39 begins at the junction of segments 32 and 33 on the south side of CR 690, north of a pipeline in the northwest corner of Section 20 in Terry County. It extends west into Section 19 paralleling the south side of CR 690, along the northern boundary of Section 19, for approximately 0.4 mile where it turns north and immediately crosses CR 690 and enters the southwest corner of Section 9. It then parallels the eastern boundary of Section 4 for approximately 1.0 mile to the south side of CR 680. The segment then turns west, paralleling the south side of CR 680 and the northern boundary of Section 4, for approximately 1.0 mile to the east side of FM 403. The segment then turns north and crosses CR 680 into the southwest corner of Section 9 where it terminates at the junction of segments 42 and 45, northeast of the FM 403/CR 680 intersection.

Segment 40
Segment 40 begins at the junction of segments 36 and 37 southwest of the CR 134/CR 690 intersection along the northern boundary of Section 14 in Gaines County. It extends north into Terry County and Section 20 and parallels the west side of CR 361 for approximately 0.2 mile where it turns northeast, crossing CR 361. From here it proceeds northeast for approximately 0.2 mile where it crosses CR 361 again at the CR 361/CR 690 intersection. There the segment enters the ROW of an existing 69-kV transmission line and double circuits the existing line to the north, paralleling the east side of CR 361 and the western boundary of Section 1 for approximately 0.9 mile. At this point the segment angles northwest and exits the existing 69-kV transmission line's ROW, crosses CR 361, and enters the northeast corner of Section 2. It proceeds north parallel to the west side of CR 361 for approximately 0.3 mile where it crosses CR 680 into the southeast corner of Section 4. There the segment terminates at the junction of segments 43 and 48 northwest of the CR 361/CR 680 intersection, in the southeast corner of Section 4.

Segment 41
Segment 41 begins at the junction of segments 31 and 38, on the south side of CR 134 along the northern boundary of Section 15, immediately south of the Terry-Gaines county line in Gaines County. It extends north into Terry County and into Section 20 for approximately 0.2 mile, where it crosses CR 351. There the segment begins to parallel the east side of CR 351, heading north, for approximately 0.1 mile into Section 2. The segment continues north paralleling the east side of CR 351 and the western boundary of Section 2 for approximately 1.0 mile to the south side of an existing 115-kV transmission line and CR 680. The segment terminates at the junction of segments 44 and 46, within a 115-kV transmission line ROW, southeast of the CR 351/CR 680 intersection in the northwest corner of Section 2, approximately 1.0 mile west of the existing Sulphur Springs Substation.

Segment 42
Segment 42 begins at the junction of segments 39 and 45 northeast of the FM 403/CR 680 intersection in the southwest corner of Section 9 in Terry County. It extends west, immediately crossing FM 403 into Section 8, paralleling the north side of CR 680 and the southern boundary of Section 8 for approximately 0.4 mile, where it crosses a pipeline. The segment continues west, paralleling the north side of CR 680 and the southern boundary of Section 8, for approximately 0.4 mile, where it angles southwest across CR 680 into Section 5. The segment then proceeds west, paralleling the south side of CR 680 and the northern boundary of Section 5, for approximately 0.2 mile where it crosses into Section 6. The segment continues west, paralleling the south side of CR 680 and the northern boundary of Section 6, for approximately 0.5 mile, where it crosses a pipeline. It continues west, paralleling the south side of CR 680 and the northern boundary of Section 6, for approximately 0.2 mile where it crosses another pipeline. The segment continues west, paralleling the south side of CR 680 and the northern boundary of Section 6, for approximately 0.3 mile, where it crosses CR 371 into Section 1. The segment terminates at the junction of segments 35 and 43, southwest of the CR 371/CR 680 intersection in the northeast corner of Section 1.

Segment 43
Segment 43 begins at the junction of segments 35 and 42, southwest of the CR 371/CR 680 intersection in the northeast corner of Section 1 in Terry County. It extends west, paralleling the south side of CR 680 and the northern boundary of Section 1, for approximately 0.4 mile, where it turns northwest for less than 0.1 mile to cross CR 680 into Section 5. The segment then proceeds west, paralleling the north side of CR 680 and the southern boundary of Section 5, for approximately 0.4 mile, where it crosses an existing 115-kV transmission line, passes the southern boundary of the existing Sulphur Springs Substation, located northeast of the CR 361/CR 680 intersection in the southwest corner of Section 5, and crosses an existing 69-kV transmission line. From there, the segment proceeds west and crosses CR 361 into the southeastern corner of Section 4. The segment terminates at the junction of segments 43 and 48 northwest of the CR 361/CR 680 intersection, in the southeast corner of Section 4.

Segment 44
Segment 44 begins at the junction of segments 41 and 46, within the ROW of an existing 115-kV transmission line in the southeast corner of the CR 351/CR 680 intersection in the northwest corner of Section 2 in Terry County. It double circuits the existing 115-kV transmission line to the east within existing ROW, parallel to the south side of CR 680 and the northern boundary of Section 2, for approximately 0.9 mile. Here the segment angles north, exits the existing 115-kV transmission line's ROW, crosses CR 680 and enters the southeast corner of Section 4. It proceeds north 0.1 mile, turns east and extends another 0.1 mile where it terminates at the junction of segments 47, 48, and 49 northwest of the CR 361/CR 680 intersection in the southeast corner of Section 4.

Segment 45
Segment 45 begins at the junction of segments 39 and 42, in the northeast corner of the FM 403/CR 680 intersection in the southwest corner of Section 9 in Terry County. It extends north, parallel to the east side of FM 403 and the western boundary of Section 9, for approximately 0.5 mile, where it crosses a pipeline. The segment continues north, paralleling the east side of FM 403 and the western boundary of Section 9, for approximately 0.1 mile, where it crosses Sulphur Springs Draw. The segment continues north, paralleling the east side of FM 403 and the western boundary of Section 9, for approximately 0.4 mile to the south side of CR 670. The segment then turns west, crossing FM 403 into Section 8, and parallels the south side of CR 670 and the northern boundary of Section 8 for approximately 0.9 mile where it crosses a pipeline and continues west another 0.1 mile, where it crosses another pipeline and enters Section 7. The segment continues west, paralleling the south side of CR 670 along the northern boundary of Section 7, for approximately 0.3 mile, where it angles northwest across CR 670 and crosses a pipeline into Section 18. The segment then proceeds west, now parallel to the north side of CR 670,
